

TECH TIPS

Dixie Part Numbers: S-1430

Applications: 1996 Cadillac Eldorado

Condition: The operator of the vehicle may complain of one or more of the following conditions:

- The engine fails to start
- The instrument panel malfunctions (lights and gauges operate intermittently or not at all).
- The instrument panel goes completely blank.

Cause: A potential cause for the above condition is an internal short circuit in the instrument panel cluster.

Correction: Follow the manufacturer's recommended diagnostic and repair procedures.
