

TECH TIPS

Dixie Part Numbers: TBA

Applications: 2010 – 2012 Buick Lacrosse

Conditions: The operator of the vehicle may complain of one or more of the following conditions after towing the vehicle for an extended period (such as behind a motor home):

- A dead battery
- Hard starting
- A failure to start

Cause: A potential cause for the above conditions is that for the vehicle to be towed it must be in neutral. To stay in neutral the ignition must be in the accessory (or run) mode. This causes all of the electronics in the vehicle to remain on and prevents them from entering the sleep mode.

Correction: Follow the manufacturer's recommended towing procedures, which include removing fuse #22 from the instrument panel fuse block.
