2009 GMC Yukon VIN 9J100110 to 9J106112 and  
9R100266 to 9R123631

2009 GMC Yukon XL VIN 9J100115 to 9J1060107 and  
9R100266 to 9R123631

**Condition:** The operator of the vehicle may complain of one or more of the following conditions:

- The engine is hard to start
- The engine fails to start
- The engine stalls for no apparent reason
- The service engine lamp may come on.

**Cause:** A flaw in the fuel system module may allow water to penetrate and cause intermittent or erratic operation of the fuel system.

**Correction:** The manufacturer has released an updated fuel system module that corrects this problem and has issued a vehicle recall to customers in the US and Canada and where the US National Traffic and Motor Safety Act is applicable anyone outside of those areas may not be notified. The new fuel pump assembly is 20850907.
